

VETO OF H.R. 5118

MESSAGE

FROM

THE PRESIDENT OF THE UNITED STATES

TRANSMITTING

HIS VETO MESSAGE ON H.R. 5118, THE PROPOSED "SOUTHERN
ARIZONA WATER RIGHTS SETTLEMENT ACT OF 1982"

JUNE 2, 1982.—Message and accompanying papers
ordered to be printed

U.S. GOVERNMENT PRINTING OFFICE

To the House of Representatives:

I return herewith, without my approval, H.R. 5118, the proposed "Southern Arizona Water Rights Settlement Act of 1982." I take this action with sincere disappointment. I am well aware of the hard work of the Arizona Congressional leaders that went into the development and passage of this legislation. I also understand their desire to resolve the litigation that has hung over the head of the City of Tucson and the many private parties involved for the past seven years.

I strongly believe that the most appropriate means of resolving Indian water rights disputes is through negotiated settlement and legislation if it is needed to implement any such settlement. However, H.R. 5118 is a negotiated settlement with a serious flaw. The United States Government was never a party to the negotiations that led to the development of this proposal. This settlement was negotiated among the Tribe, the City of Tucson, the State of Arizona, the affected commercial interests and other defendants with assistance from the Arizona Congressional delegation. The result of this negotiation was that the United States Government, which was absent from the negotiation table, would bear almost the entire financial burden of the settlement at a potential initial cost of \$112 million and a potential annual cost of approximately \$5 million.

I cannot support this resolution of litigation on behalf of the Papago Tribe by the United States Government. I can only in good conscience approve legislation intended to implement a settlement if the United States has been a major party in the negotiations and if the contribution by the defendants in the litigation involved is significant.

I pledge the full cooperation of my Administration to the States and local governments that are facing the difficult task of equitably resolving Indian water rights suits. I cannot, however, pledge the Federal Treasury as a panacea for this problem.

H.R. 5118 is a multi-million dollar bailout of local public and commercial interests at the expense of Federal taxpayers throughout the nation. It is a prime example of serious misuse of Federal funds. It asks the Federal Government to pay the settlement share of the mining companies and other local water users whose share should more properly be borne by the defendants themselves.

I therefore must return this legislation to you without my approval. I will only approve legislation that implements a true negotiated settlement. Such a settlement is one in which all parties that are making contributions or concessions have agreed to those contributions or concessions at the negotiating table. I look forward to receiving such legislation from the Congress. I am asking the Secretary of the Interior to coordinate participation by my Administration in any such negotiations.

RONALD REAGAN.

THE WHITE HOUSE, *June 1, 1982.*

Ninety-seventh Congress of the United States of America

AT THE SECOND SESSION

*Begun and held at the City of Washington on Monday, the twenty-fifth day of January,

An Act

To provide water to the Papago Tribe of Arizona and its members, to settle Papago Indian water rights claims in portions of the Papago reservations, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

CONGRESSIONAL FINDINGS

SECTION 1. The Congress finds that—

(1) water rights claims of the Papago Tribe with respect to the San Xavier Reservation and the Schuk Toak District of the Sells Papago Reservation are the subject of existing and prospective lawsuits against numerous parties in southern Arizona, including major mining companies, agricultural interests, and the city of Tucson;

(2) these lawsuits not only will prove expensive and time consuming for all participants, but also could have a profound adverse impact upon the health and development of the Indian and non-Indian economies of southern Arizona;

(3) the parties to the lawsuits and others interested in the settlement of the water rights claims of the Papago Indians within the Tucson Active Management Area and that part of the Upper Santa Cruz Basin not within that area have diligently attempted to settle these claims and the Federal Government, by providing the assistance specified in this Act, will make possible the execution and implementation of a permanent settlement agreement;

(4) it is in the long-term interest of the United States, the State of Arizona, its political subdivisions, the Papago Indian Tribe, and the non-Indian community of southern Arizona that the United States Government assist in the implementation of a fair and equitable settlement of the water rights claims of the Papago Indians respecting certain portions of the Papago Reservation; and

(5) the settlement contained in this Act will—

(A) provide the necessary flexibility in the management of water resources and will encourage allocation of those resources to their highest and best uses; and

(B) insure conservation and management of water resources in a manner consistent with the goals and programs of the State of Arizona and the Papago Tribe.

DELIVERIES UNDER EXISTING CONTRACT; ALTERNATIVE WATER SUPPLIES; OPERATION AND MAINTENANCE

SEC. 4. (a) The water delivered from the main project works of the Central Arizona Project to the San Xavier Reservation and to the Schuk Toak District of the Sells Papago Reservation as provided in section 3(a), shall be delivered in such amount, and according to such terms and conditions, as are set forth in the December 11, 1980, agreement, except as otherwise provided under this section.

(b) Where the Secretary, pursuant to the terms and conditions of the agreement referred to in subsection (a), is unable, during any year, to deliver from the main project works of the Central Arizona Project any portion of the full amount of water specified in section 3(a)(1)(A) and section 3(a)(2)(A), the Secretary shall acquire and deliver an equivalent quantity of water from the following sources or any combination thereof:

(1) agricultural water from the Central Arizona Project which has been contracted for but has been released or will be unused by the contractor during the period in which the Secretary will acquire the water;

(2) any water available for delivery through the Central Arizona Project which exists by reason of the augmentation of the water supply available for use and distribution through the Central Arizona Project by subsequent Acts of Congress; and

(3) water from any of the following sources or any combination thereof within the Tucson Active Management Area and that part of the Upper Santa Cruz Basin not within that area in the State of Arizona:

(A) private lands or interests therein having rights in surface or ground water recognized under State law; or

(B) reclaimed water to which the seller has a specific right.

Deliveries of water from lands or interests referred to in subparagraph (A) shall be made only to the extent such water may be transported within the Tucson Active Management Area pursuant to State law.

(c) If the Secretary is unable to acquire and deliver quantities of water adequate to fulfill his obligations under this section or paragraphs (1)(A) and (2)(A) of section 3(a), he shall pay damages in an amount equal to—

(1) the actual replacement costs of such quantities of water as are not acquired and delivered, where a delivery system has not been completed within ten years after the date of enactment of this Act, or

(2) the value of such quantities of water as are not acquired and delivered, where the delivery system is completed.

(d) No land, water, water rights, contract rights, or reclaimed water may be acquired under subsection (b) without the consent of the owner thereof. No private lands may be acquired under subsection (b)(3)(A) unless the lands have a recent history of receiving or being capable of actually receiving all or substantially all of the water right the use of which is recognized by State law. In acquiring any private lands under subsection (b)(3)(A), the Secretary shall give preference to the acquisition of lands upon which water has actually been put to beneficial use in any one of the five years preceding the date of acquisition. Nothing in this section shall authorize the Secretary to acquire or disturb the water rights of any Indian tribe, band, group, or community.

(e)(1) To meet the obligation referred to in paragraphs (1)(A) and (2)(A) of section 3(a), the Secretary shall, acting through the Bureau of Reclamation, as part of the main project works of the Central Arizona Project—

(A) design, construct and, without cost to the Papago Tribe, operate, maintain, and replace such facilities as are appropriate including any aqueduct and appurtenant pumping facilities, treatment plants, powerplants, and electric power transmission facilities which may be necessary for such purposes; and

(B) deliver the water to the southern boundary of the San Xavier Reservation, and to the boundary of the Schuk Toak District of the Sells Papago Reservation, at points agreed to by the Secretary and the tribe which are suitable for delivery to the reservation distribution systems.

(2) There is hereby authorized to be appropriated by this Act, in addition to other sums authorized to be appropriated by this Act, a sum equal to that portion of the total costs of phase B of the Tucson Aqueduct of the Central Arizona Project which the Secretary determines to be properly allocable to construction of facilities for the delivery of water to Indian lands as described in subparagraphs (A) and (B) of paragraph (1). Sums allocable to the construction of such

facilities shall be reimbursable as provided by the Act of July 1, 1932 (Public Law 72-240; 25 U.S.C. 386(a)), as long as such water is used for irrigation of Indian lands.

(f) To facilitate the delivery of water to the San Xavier and the Schuk Toak District of the Sells Papago Reservation under this Act, the Secretary is authorized—

(1) to enter into contracts or agreements for the exchange of water, or for the use of aqueducts, canals, conduits, and other facilities for water delivery, including pumping plants, with the State of Arizona or any of its subdivisions, with any irrigation district or project, or with any authority, corporation, partnership, individual, or other legal entity; and

(2) to use facilities constructed in whole or in part with Federal funds.

RECLAIMED WATER; ALTERNATIVE WATER SUPPLIES

SEC. 5. (a) As soon as possible, but not later than ten years after the date of enactment of this Act, the Secretary shall purchase reclaimed water in accordance with the agreement described in section 7(a)(1) and deliver annually twenty-three thousand acre-feet of water suitable for agricultural use to the San Xavier Reservation and deliver annually five thousand two hundred acre-feet of water suitable for agricultural use to the Schuk Toak District of the Sells Papago Reservation.

(b)(1) The obligation of the Secretary referred to in subsection (a) to deliver water suitable for agricultural use may be fulfilled by any additional treatment, including land filtration, of the reclaimed water acquired by the Secretary as provided herein, by any other means which renders such reclaimed water suitable for agricultural use, or by voluntary exchange of that reclaimed water for any other water suitable for agricultural use. To make available and deliver such water, the Secretary acting through the Bureau of Reclamation shall design, construct, operate, maintain, and replace such facilities as are appropriate.

(2) The Secretary shall not construct a separate delivery system to deliver reclaimed water referred to in subsection (a) to the San Xavier Reservation and the Schuk Toak District of the Sells Papago Reservation.

(c) The Secretary may, as an alternative to, and in satisfaction of the obligation to deliver the quantities of water to be delivered under subsection (a), acquire and deliver pursuant to agreements authorized in section 7(b), an equivalent quantity of water from the following sources or any combination thereof—

(1) agricultural water from the Central Arizona Project which has been contracted for but has been released or will be unused by the contractor during the period in which the Secretary will acquire the water;

(2) any water available for delivery through the Central Arizona Project which exists by reason of the augmentation of the water supply available for use and distribution through the Central Arizona Project by subsequent Acts of Congress; and

(3) water from any of the following sources or any combination thereof within the Tucson Active Management Area in the State of Arizona and that part of the Upper Santa Cruz Basin not within that area—

(A) private lands or interests therein having rights in surface or ground water recognized under State law; or

(B) reclaimed water to which the seller has a specific right.

Deliveries of water from lands referred to in subparagraph (A) shall be made only to the extent such water may be transported within the Tucson Active Management Area pursuant to State law.

(d) If the Secretary is unable to acquire and deliver quantities of water adequate to fulfill his obligations under this section, he shall pay damages in an amount equal to—

(1) the actual replacement costs of such quantities of water as are not acquired and delivered, where a delivery system has not been completed within ten years after the date of enactment of this Act, or

(2) the value of such quantities of water as are not acquired and delivered, where a delivery system is completed.

(e) No land, water, water rights, contract rights, or reclaimed water may be acquired under subsection (c) without the consent of the owner thereof. No private lands may be acquired under subsection (c)(3)(A) unless the lands have a recent history of receiving or being capable of actually receiving all or substantially all of the water the right to the use of which is recognized by State law. In acquiring said private lands, the Secretary shall give preference to the acquisition of lands upon which water has actually been put to beneficial use in any one of the five years preceding the date of acquisition. Nothing in this section shall authorize the Secretary to acquire or disturb the water rights of any Indian tribe, band, group, or community.

**LIMITATION ON PUMPING FACILITIES FOR WATER DELIVERIES;
DISPOSITION OF WATER**

SEC. 6. (a) The Secretary shall be required to carry out his obligation under subsections (b), (c), and (e) of section 4 and under section 5 only if the Papago Tribe agrees to—

(1) limit pumping of ground water from beneath the San Xavier Reservation to not more than ten thousand acre-feet per year;

(2) limit the quantity of ground water pumped from beneath the eastern Schuk Toak District of the Sells Papago Reservation which lies within the Tucson Active Management Area to those quantities being withdrawn on January 1, 1981; and

(3) comply with the management plan established by the Secretary under section 3(a)(3).

Nothing contained in paragraph (1) shall restrict the tribe from drilling wells and withdrawing ground water therefrom on the San Xavier Reservation if such wells have a capacity of less than thirty-five gallons per minute and are used only for domestic and livestock purposes. Nothing contained in paragraph (2) shall restrict the tribe from drilling wells and withdrawing ground water therefrom in the eastern Schuk Toak District of the Sells Papago Reservation which lies within the Tucson Active Management Area if such wells have a capacity of less than thirty-five gallons per minute and which are used only for domestic and livestock purposes.

(b) The Secretary shall be required to carry out his obligations with respect to distribution systems under paragraphs (1)(B) and (2)(B) of section 3(a) only if the Papago Tribe agrees to—

(1) subjugate the land for which those distribution systems are to be planned, designed, and constructed by the Secretary; and

(2) assume responsibility, through the tribe or its members or an entity designated by the tribe, as appropriate, following completion of those distribution systems and upon delivery of water under this Act, for the operation, maintenance, and replacement of these systems in accordance with the first section of the Act of August 1, 1914 (38 Stat. 583; 25 U.S.C. 385).

(c)(1) The Papago Tribe shall have the right to devote all water supplies under this Act, whether delivered by the Secretary or pumped by the tribe, to any use, including but not limited to agricultural, municipal, industrial, commercial, mining, or recreational use whether within or outside the Papago Reservation so long as such use is within the Tucson Active Management Area and that part of the Upper Santa Cruz Basin not within such area.

(2) The Papago Tribe may sell, exchange, or temporarily dispose of water, but the tribe may not permanently alienate any water right. In the event the tribe sells, exchanges, or temporarily disposes of water, such sale, exchange, or temporary disposition shall be pursuant to a contract which has been accepted and ratified by a resolution of the Papago Tribal Council and approved and executed by the Secretary as agent and trustee for the tribe. Such contract shall specifically provide that an action may be maintained by the contracting party against the United States and the Secretary for the breach thereof. The proceeds from any sale, exchange, or disposition of water by the Papago Tribe shall be used for social or economic programs which benefit the Papago Tribe.

(d) Nothing in section 6(c) shall be construed to establish whether or not reserved water may be put to use, or sold for use, off of any reservation to which reserved water rights attach.

**OBLIGATION OF THE SECRETARY; CONTRACT FOR RECLAIMED WATER;
DISMISSAL AND WAIVER OF CLAIMS OF PAPAGO TRIBE AND ALLOTTEES**

SEC. 7. (a) The Secretary shall be required to carry out his obligations under subsections (b), (c), and (e) of section 4 and under section 5 only if—

(1) within one year of the date of enactment of this Act—

(A) the city of Tucson, the Secretary, and the Papago Tribe agree, after the enactment of this Act, that the city will make available at no profit to the city such quantity of reclaimed water as is adequate to deliver annually, as contemplated in section 5(a), twenty-eight thousand two hundred acre-feet of water;

(B) the Papago Tribe agrees to file with the United States District Court for the District of Arizona a stipulation for voluntary dismissal with prejudice, in which the Attorney General is authorized and directed to join on behalf of the United States, and the allottee class representatives' petition for dismissal of the class action with prejudice in the United States, the Papago Indian Tribe, and others against the city of Tucson, and others, civil numbered 75-39 TUC (JAW); and

(C) the Papago Tribe executes a waiver and release in a manner satisfactory to the Secretary of—

(i) any and all claims of water rights or injuries to water rights (including water rights in both ground water and surface water) within the Tucson Active Management Area and that part of the Upper Santa Cruz Basin not within said area, from time immemorial to the date of the execution by the tribe of such waiver, which the Papago Tribe has against the United States, the State of Arizona and any agency or political subdivision thereof, or any other person, corporation, or municipal corporation, arising under the laws of the United States or the State of Arizona; and

(ii) any and all future claims of water rights (including water rights in both ground water and surface water) within the Tucson Active Management Area and that part of the Upper Santa Cruz Basin not within said area, from and after the date of execution of such waiver, which the Papago Tribe has against the United States, the State of Arizona and any agency or political subdivision thereof, or any other person, corporation, or municipal corporation, under the laws of the United States or the State of Arizona; and

(2) the suit referred to in paragraph 1(B) is finally dismissed.

(b) After the conditions referred to in subsection (a) have been met the Secretary shall be authorized and required, if necessary or desirable, to enter into agreements with other individuals or entities to acquire and deliver water from such sources set forth in section 5(c) if through such contracts as exercised in conjunction with the contract required in subsection (a)(1)(A) it is possible to deliver the quantities of water required in section 5(a).

(c) Nothing in this section shall be construed as a waiver or release by the Papago Tribe of any claim where such claim arises under this Act.

(d) The waiver and release referred to in this section shall not take effect until such time as the trust fund referred to in section 9 is in existence and the full amount authorized to be appropriated to the trust fund under section 9 has been appropriated by the Congress.

(e) The settlement provided in this Act shall be deemed to fully satisfy any and all claims of water rights or injuries to water rights (including water rights in both ground water and surface water) of all individual members of the Papago Tribe that have a legal interest in lands of the San Xavier Reservation and the Schuk Toak District of the Sells Reservation located within the Tucson Active Management Area and that part of the Upper Santa Cruz Basin not within said area, as of the date the waiver and release referred to in this section take effect. Any entitlement to water of any individual member of the Papago Tribe shall be satisfied out of the water resources provided in this Act.

(a) The Secretary is hereby authorized and directed to carry out such studies and analysis as he deems necessary to determine which lands, if any, within the Gila Bend Reservation have been rendered unsuitable for agriculture by reason of the operation of the Painted Rock Dam. Such study and analysis shall be completed within one year after the date of the enactment of this Act.

(b) If, on the basis of the study and analysis conducted under subsection (a), the Secretary determines that lands have been rendered unsuitable for agriculture for the reasons set forth in subsection (a), and if the Papago Tribe consents, the Secretary is authorized to exchange such lands for an equivalent acreage of land under his jurisdiction which are within the Federal public domain and which, but for their suitability for agriculture, are of like quality.

(c) The lands exchanged under this section shall be held in trust for the Papago Tribe and shall be part of the Gila Bend Reservation for all purposes. Such lands shall be deemed to have been reserved as of the date of the reservation of the lands for which they are exchanged.

The income accruing on such deposits and securities may only be used, pursuant to appropriations legislation, for the subjugation of land, development of water resources, and the construction, operation, maintenance, and replacement of related facilities (including pumping and power transmission facilities) on the Papago Reservation which are not the obligation of the United States under this or any other Act of Congress.
